

What Makes Us Unique

- Preschool “push-in” providing ABA therapy as well as the unique opportunity to introduce your child to an inclusive preschool classroom setting
- Functional, Behavioral, Social, and Communication assessments
- Collaboration with on-staff related services, such as Speech-Language Pathology, Occupational Therapy, and Mental Health Services
- Expertise in Verbal Behavior, Crisis Management, and Functional Life Skills
- Weekly Social Skills Training for School-Age Children

Payment Options

We work with several insurance companies (Magellan, Aetna and Cigna); accept private pay plans; and will assist in working with insurance plans.

Aurora Behavior Clinic has a specialized curriculum that is designed for children with autism and other related disabilities, focusing on verbal behavior skills and increasing social interaction.

Providing
individualized therapeutic
options for **children with autism**
and other related **disabilities**

What We Offer

The team at Aurora Behavior Clinic works with children who are diagnosed on the autism spectrum or have other related disabilities, as well as their families, caregivers and the professionals who work with them. Our specialized curriculum is designed to work on **Verbal Behavior, Social Skills, Academic Skills** and **Appropriate Behavior**.

For Preschool and School-Age Children

- Diagnosis Assistance
- One-on-one ABA therapy
- Opportunity for preschool classroom push-in (for Preschool-Age Children)
- Social Skills Groups (for School-Age Children)
- Speech-Language Pathology and Occupational Therapy Services
- Individualized Education Plan (IEP) Review
- Functional Analysis and Assessments of Behavior; and Behavior Plan Development and Review
- Classroom Consultations and Family Support in the Community

For Parents, Caregivers, and Professionals

- Classroom trainings will introduce ABA Principles to parents and caregivers
- In-home Trainings will teach parents how to carry ABA principles learned in the classroom into the home and community settings
- Professional Crisis Management Training
- Classroom Consultations and Family Support in the Community
- Training for Community Partners

Applied Behavior Analysis (ABA)

Aurora Behavior Clinic uses the principles of ABA in all of its programming. ABA uses basic behavior principles to reinforce wanted behavior (including learning, verbal behavior, etc.) and decrease unwanted behavior (including challenging behavior, tantrums, and more).

Preschool Advantage

While providing one-on-one ABA therapy sessions, we can also provide one-on-one support services, in an inclusive preschool classroom setting with peers.

Each child has the unique opportunity to learn behavioral, social and pre-academic skills in a natural environment (play-based) setting using the principles of ABA.

Social Skills Groups

Every Tuesday evening during the School Year, we offer two Social Skills Group curricula for differentiating individual needs.

Social Skills Groups focus on social thinking and verbal and non-verbal peer interactions. Students are placed in groups according to individual needs.

More details are at: www.paxtoncampus.org/social-skills-groups/
